Tents for caravans

Palm Beach/Palm Beach Quick – sun canopies

- Dome roof against water pockets
- Roof with 2 diagonal fiberglass poles
- Generous sense of space
- Double piping Ø5+7 mm and tunnel

Chic and robust sun awning for for your caravan with sewn-on keder profile, suitable for VW Transporter with Multirail or similar keder rail. The two supplied set-up rods and two diagonally running fiberglass rods, provide a stable arching of the sun canopy upwards. This prevents the formation of a water bag in the dome roof.

Palm Beach sun canopy

- Small pack size
- Pockets with Velcro in the corners for easy insertion of the fiberglass rods
- Color: Light grey//anthracite/lime-green

from **653,-**

Roof reinforcement bar with quick-release

Storm bracing included

Adria Action Air 391 – Air sun sail

- Front and side walls completely removable, can also be used as an awning
- Mosquito net front available separately

The sun sail was specially developed for the Adria Action 391 caravan. It is quick and easy to set up and take down thanks to just 1 high-quality TPU air hose. The front wall has a door and, like both side walls, a large window with inner cover.

The side walls each have floor ventilation with mosquito net. The front and sides are completely removable with a zip.

This means that this product can be used as sun protection and also as an awning.

The scope of delivery includes 3 aluminium roof reinforcement poles with quick-release clamps and an additional reflective storm guy rope.

Scope of delivery: Tent, air tube, air pump, 3 roof poles (aluminum), storm guy ropes, guy ropes, pegs, packing bag.

936689 653,-

Optional accessories:

The mosquito net front, which is simply pulled in with a zip, is optionally available to protect against insects.

Caravan tent with circulation dimension

How do I measure the circumference

If you do not know the overall dims. of your caravan, you have 3 options for determining them:

- Look in the brochure or in the technical data supplied w/ your caravan
- Contact your caravan manufacturer and enquire about your overall dimensions, stating model and YOC.
- Measure yourself - the safest method. Caravan should be positioned horizontally on a level surface in order to measure overall dimensions of your caravan. You measure from guy point A (floor) through the keder strip of the caravan with a non-stretchable cord to guy point B (floor). If the keder rail still has an inward curve at the lower end, you must measure perpendicular to the floor or remove the cord from the rail at the insertion point.

Important for aerodynamic caravans:

For caravans with an extremely sloping front end, you must measure perpendicular to the ground from a height of approx. 185 cm (i.e. you no longer follow the rail).

This determined value is circulation dimension. Points A and B are also the guy points of your awning.

If the overall dimensions of your caravan are on the edge of the awning size specifications, you should opt for the smaller tent size. The size of your caravan awning depends solely on the overall dimensions. Only the depth of the tent is a free choice.

Attaching the roof poles to the caravan.

- With wall eyelets, firmly screwed (seal drill holes well)! We recommend this option for partial tents. The rear roof corners are fixed and do not move even in strong crosswinds. Wall eyelets are also a good choice for permanent camping.
- With screwless Vario clips! These are pushed onto the inner piping. The advantage of this variant is the flexibility in the choice of fixing points. Clip is connected to tent roof and cannot fall down if the pressure on the poles decreases.

CORTINA 3

Very robust partial winter tent - tested in Lapland!

762,-

Mounting height: 235 - 255 cm

Cortina 3 winter awning for caravans

- Very robust, well insulated, breathable
- Harnesses with quick release
- Good insulation due to climate-controlled canopy
- 2 separate doors in the side walls
- Breathable side walls
- Winterproof roof
- The right choice for every season

The CORTINA 3 all-season awning is suitable for summer and winter. The walls are breathable, the stable roof is winter-proof and the steel frame is robust. The awning is equipped with a large window in the front and windows in the side walls. Included are curtains in white for all windows and an attachable climate canopy in gray for a homely ambience and good insulation. The front wall can be opened in all directions with the 4-way zipper, can be completely removed or used as a veranda function. Pressure bars and sewn-on foam beads ensure a draught-free seal to the caravan and are completed by the wind skirt.

Scope of delivery: Tent skin, steel poles w/ Quick Lock Padset, climate canopy, curtains, wind protection, wheel protection, storm bracing, ropes, pegs.

Telescopic 71 - 120 cm, material: aluminum, with hook.

903075 10,90

Caravan canopy -
for caravan up to 230 cm width

- Reliable weather protection
- Caravan tarpaulin waterproof and breathable
- Partial cover for better ventilation: reduction of mold risk
- Made of high-strength 3-ply SFS fabric 160 g/m²
- Waterproof and UV resistant

Caravans are exposed to the weather - especially when vehicles are parked outdoors. Precipitation and intense sunlight, but also dust, dirt, bird droppings or tree resin leave their mark over time and affect not only the appearance of the vehicles, but also their service life.

A caravan cover is inexpensive to purchase and offers reliable protection. As a result, the paint of your vehicle remains maintained and does not weather - and your upholstery fabrics in the interior are also protected from fading by the caravan cover. Color: Grey

Tailgate tents for Volkswagen Transporter 5/6/6.1

Upgrade Dome Premium - rear tent

for Volkswagen Transporter 5 / 6 / 6.1 with barn door

- Domed roof with window for a generous feeling of space
- Considerable space expansion
- Doors can be closed when the tent is erected
- Trough-shaped floor tarpaulin protects against moisture and draughts
- Front with mosquito net
- Spacious and stable
- Australian standard

The highlight of the newly developed Upgrade Dome Premium rear tent: wing doors can be closed when tent is set up. Domed roof gives generous feeling of space & at the same time prevents water pockets when it rains. The U-shaped tubular steel frame promises stability. The front wall has a large door (can be used as an awning) and a transparent window with inner cover and additional mosquito net. The side walls with oval windows and the skylight window in the roof ensure good all-round visibility. A groundsheet with integrated wind protection under the bumper, which is secured with Velcro, completes the tent.

BENDIGO AIR

NEW
2024

Mounting on vehicles equipped with base carriers.
Please take the maximum roof load of the vehicle into account.

Bendigo Air - Air roof tent

- Large sleeping area for 2 people (L 220 x B 140cm)
- 2 doors and 2 windows with canopy
- Mosquito net on all openings
- For cars, vans, SUV's
- Tarpaulin protects during the journey
- Roof lining for more comfort
- Comfortable 1.40 m wide mattress, small pack size

The new roof tent is supplied complete with an aluminum roof platform. This is mounted on the vehicle so that the inflated mattress can then be pulled into the rail of the platform using the piping. The tent skin is fixed to the mattress and can then be easily inflated with the pump supplied. This is done very quickly thanks to the one-point inflation system. The ladder is then secured and the roof tent is ready for use. Deflation is very quick thanks to the 2 valves, the tent and inflated mattress can remain on the platform and are protected by a tarpaulin during the journey. The roof tent and mattress can be quickly and easily removed from the platform and stowed in the carrying bag (app. 90 x 55 x 43 cm), giving you the choice of leaving the roof tent on the roof while driving or stowing it in the vehicle. All windows and doors are fitted with mosquito nets and have a canopy that can be set up quickly. The interior headliner supplied provides more comfort, conceals the roof structure and reduces condensation. A soft mattress topper for even more sleeping comfort is also included. Guy loops are provided at the corners of the roof tent. The roof tent can also be used without a platform and vehicle on the ground.

Ladder load capacity: max. 150 kg

Tarpaulin material: 600D Oxford + coated PVC (weatherproof)

Camping Know How

The tent skin:

Synthetic fiber or cotton?

Today, modern synthetic fiber fabrics are almost exclusively used for travel tents due to their excellent waterproofness and stability combined with low weight and pack size. Disadvantage is their lower breathability (w/ exception of acrylic fabrics) & poorer light resistance, but this is of little consequence when they are normally used as vacation tents. The fabrics can be given a UV protective coating to increase their lightfastness.

Polyester UV-resistant

Extremely stable and hardly any wear. Long shelf life. Comparatively resistant to solar radiation. Low water absorption, moisture remains on surface of material & hardly penetrates fibers. Very fast drying.

Polyester PU-coated (coated)

Even more water-repellent and quick-drying.

Polyester Ripstop

Polyester fabric w/ reinforced "grid inserts", particularly tear-resistant. Oxford polyester, e.g. 150D. Woven polyester fibers are more stable and tear-resistant. Used for extremely high-quality tents. Reimo tents are mainly made of ripstop polyester or Oxford polyester. For long durability with low weight

PE or polyethylene

For tent floors or rotting strips. Long, thin "plastic strands" are woven together and laminated on both sides with liquid polyethylene. Abrasion and mildew resistant, UV resistant.

PVC fabric

Extremely heavy, waterproof and hard-wearing fabric, sometimes used for tent roofs or sewing strips.

Cotton

Breathable, allows water and air to pass through. Moisture is absorbed, the individual fibers swell and the fabric becomes dense. Cotton usually only achieves an impermeability of around 300 mm water column. Due to its high weight, sensitivity and long drying time, it is rarely used.

Polycotton

Breathable blended fabric made from polyester and cotton. Lighter and more water-repellent than pure cotton. But compared to polyester, it is considerably heavier and not as waterproof.

Acrylic

Modern hi-tech synthetic fiber fabric w/ breathability similar to cotton tents. Only used for very high-quality tents.

Seam sealing - Seam Taping

Tents made of synthetic fiber fabric leak at seams first. To seal polyester tents, special, high-quality PU sealing tape is pressed onto the inside of the seams using heat and pressure. This makes them completely water-repellent. In the event of damage, liquid seam sealants can be used for sealing. Seam sealing is not so critical with nylon tents (usually double roof tents). They are sewn with polyester threads with a cotton coating that swells and seals. With cotton tents, seam itself usually swells.

Flame retardancy

Tent fabrics are naturally sensitive to fire. They can be given a flame-retardant coating to improve their properties.

Condensation water tightness

Modern fabrics are usually extremely waterproof. As a result, the moisture in the breathing air or room air condenses on the interior walls. The only remedy is good ventilation. The following rule applies: the greater the temperature difference between outside and inside, the more ventilation is required. The effect can also be reduced by using a thermal canopy made of cotton fabric, which can store moisture and therefore has a balancing effect.

The tent poles:

Steel frame

Very stable. In the case of a simple design, only painted; galvanizing offers better rust protection. Important is a very good stiffening of corner angle tent parts w/ rubber, cords or chains. Color markings or numbering facilitate the structure.

Aluminum poles

About 50% lighter than steel. For sufficient stability, usually stronger than steel poles. Stowage volume is about the same.

Fiberglass poles

Used for modern dome or tunnel tents. Manufactured from fibers bonded w/ resin. Highly flexible, elastic and always returns to its original position. Bars of any length can be assembled from individual elements. Elastic rope connections facilitate assembly. Extremely durable, heavier than aluminum.

Aluminum poles for high-tech tents

Used for special high mountain tents. Mostly made of aircraft aluminum, high-strength and very light. Due to the high material costs, they are only worth using where particularly low weight or very high strength is required.

Air hoses

Inflatable awnings are becoming more and more important. An inflatable tent is set up and ready for use in no time. The cumbersome handling with the tent poles is eliminated. Simply inflate with an air pump 7 psi pressure and the tent stands stable and reliable.

Then attach the awning to the roof rail or piping, stretch a few storm lines and anchor it storm-proof with the guy ropes and pegs.

The waterproof and tearproof materials are also convincing. Both hoses and sheathing withstand even hard use without any problems.

Tent components:

Guy ropes Should have a light color so that they are visible in the dark. Leashes with woven-in reflective strips that reflect light in the dark like a cat's eyes are ideal.

Zipper covers Hardly any zipper is waterproof. They should therefore be covered with a fabric flap that can be secured with Velcro.

Tent windows Windows with mosquito netting provide good ventilation, but must be closed in the rain if the cover cannot be stretched over them for protection. Screens over the windows protect the rolled-up cover from dirt and water. Curtains in front of the large transparent windows protect your privacy. Choose between tents with tinted or transparent windows.

Set-up bars

Most tents are supplied with additional poles. These allow the front or side doors to be set up as awnings.

Quality is the sum of good details

MATERIAL

Most REIMO TENT TECHNOLOGY awnings are made of high-quality Ribstop polyester and are mostly manufactured in factories that are also known for their high quality production.

An additional coating provides the necessary UV protection, as well as all tents are flame retardant.

The waterproofness is at a water column of 2,000 to 3,000 mm.

SCOPE OF DELIVERY

All REIMO TENT TECHNOLOGY tents are supplied with pegs, guy ropes and poles/air tubes. Conveniently packed in a carry bag. All air tents come with a double air pump.

Additional delivery such as tent floor, roof reinforcement, wind deflector, sky, etc. is mentioned separately with the respective article.

SPECIAL FEATURES

Inflatable awnings are becoming more and more important. An inflatable tent is set up and ready for use in no time. The cumbersome handling with the tent poles is eliminated. Simply inflate with an air pump 7 psi pressure and the tent stands stable and reliable.

Then attach the awning to the roof rail or piping, stretch a few storm lines and anchor it storm-proof with the guy ropes and pegs.

The waterproof and tearproof materials are also convincing. Both hoses and sheathing withstand even hard use without any problems.

FASTENING TO THE VEHICLE

Vehicles with Multirail or rain gutter

The ideal attachment is by means of Multirail. You can decide here whether to fix the awning with a clamping pole/lock pole or with keder profile. The lock pole is pushed into the tunnel of the awning and then fixed to the Multirail or another suitable rain gutter with clamping clips. Keder profiles from 5.8 mm to 8 mm in diameter can be inserted into the Multirail.

The most practical solution is to attach the awning to the vehicle using a double keder rail. The keder rail as well as the keder profile allow the awning to remain standing when the vehicle is moved away

Retrofitting rain gutters

For attaching van awnings and sun canopies to vehicles without rain gutters, the Universal Kombi rain gutter provides protection against rainwater run-off and accommodates the piping of the awning or sun canopy in the piping profile.

Universal
Combi rain gutter
2,90 m Item-No. 90113
3,25 m Item-No. 90114

Vehicles without rain gutter

Fastening of awnings by clamping pole/rail bar. In order to attach a clamping pole to the vehicle even without a rain gutter, folding suction cups are available. With 2 folding suction cups you can fix a clamping pole on the roof by clamping the pole into the folding suction cup.

For the folding suction cup you need a clean, even and dry roof surface, the attachment is done without drilling.

Folding vacuum cleaner
Item-No. 93646

Clamping rod/
lock rod

Draw-in keder

Loop connection

Fastening with loops or guy ropes

The folding suction cup is recommended for fastening awnings, canopies and awnings with sewn-on loops or guy lines without screws. For the folding suction cup you need a clean, even and dry roof surface. A very strong vacuum is created by flipping the lever.

Folding suction cup
Item-No. 936471

Fastening awnings with a magnetic adapter

The magnetic adapter offers an even faster way of attaching to the vehicle roof. It adheres to flat vehicle roofs and is connected to the awning with piping and connector profiles. Attention: A magnetic adapter does not hold on GRP high or sleeping roofs!

Magnet adapter Item-No. 904490 S. 63

WARRANTY CONDITIONS

We provide a manufacturer's warranty for all products offered under the following Reimo brands:

“CARBEST” / “REIMO TENT” / “MC CAMPING” / “CAMP4” / “HOLIDAY TRAVEL”

WARRANTY CONDITIONS:

Reimo Reisemobil-Center GmbH, Boschring 10, D-63329 Egelsbach (hereinafter referred to as “Reimo” or “we”), provides a three-year warranty on the products sold under its own “CARBEST”, “REIMO TENT”, “CAMP4” and “HOLIDAY TRAVEL” brands in addition to the statutory rights related to defects.

By way of derogation from the above, Reimo provides a seven-year warranty on LiFePO4 lithium batteries sold under its own “CARBEST” brand and a five-year warranty on those sold under its own “MC CAMPING” brand.

In addition, Reimo provides a 25-year warranty on rigid solar panels with aluminium frames sold under the “CARBEST” brand and a 20-year warranty on those sold under the “MC CAMPING” brand.

The warranty period will start to run on the relevant invoice date. The geographical scope of our warranty extends to the territory of the Federal Republic of Germany.

If any material defects or manufacturing defects are found in your purchased products during the warranty period, we will provide you with one of the following services at our discretion as part of the warranty:

- **We will repair the goods free of charge; or**
- **We will exchange the goods for an equivalent product free of charge.**

Reimo will acquire ownership of any original parts that are replaced within the scope of the above warranty services.

You will acquire ownership of the new parts or replacement parts.

Any repairs or replacements provided under the warranty will not entitle you to extend or restart the relevant warranty period.

If you wish to make a warranty claim, please contact the dealer from whom you purchased the product in question or Reimo directly as the warrantor:

Reimo Reisemobil-Center GmbH
Boschring 10
D-63329 Egelsbach
Tel.: +49 6150 8662-310

The warranty will not apply if any defects other than material defects or manufacturing defects are found.

Furthermore, warranty claims will be rejected if any damage is caused by:

- **normal wear and tear;**
- **improper and non-intended use of the product;**
- **improper operation, installation, assembly, commissioning or operation contrary to the relevant instructions for use and/or installation, especially if instructions for maintenance and care or warnings are not observed;**
- **failure to observe any safety precautions;**
- **use of force (e.g. beating);**
- **self-repairs;**
- **use of any non-original parts or any parts not approved by the manufacturer;**
- **environmental factors (e.g. heat, humidity);**
- **circumstances for which the manufacturer is not responsible (e.g. natural disasters, accidents); or**
- **improper transportation.**

In order to make a warranty claim, you must allow us to examine the case in question (e.g. by sending us the goods).

Please use secure packaging to ensure that the goods are not damaged during transport.

In order to make a warranty claim, you must enclose a copy of the invoice with the shipment of the goods. This will enable us to check whether the warranty conditions are met. If you do not enclose a copy of the invoice, we may refuse to provide services under the warranty.

If your warranty claim is legitimate, you will not incur any shipping costs (i.e. we will reimburse you for any shipping costs incurred to send us the goods).

Please note:

This manufacturer's warranty provided by Reimo will not restrict any statutory warranty rights that you may be able to assert against Reimo / a dealer in the event of defects;

you may exercise the relevant rights free of charge.

This manufacturer's warranty shall have no bearing on any statutory warranty rights that you may hold against Reimo. On the contrary, this manufacturer's warranty serves to consolidate your legal position.

If any of your purchased items are defective, you may always assert your statutory warranty rights against Reimo, regardless of whether the defects are covered by the warranty or whether a claim is asserted under the warranty.

(Last updated: December 2023 / Rev.1.3_11.2023)

TERMS AND CONDITIONS

1. Scope

1.1 The deliveries and services of Reimo Reisenobil-Center GmbH are subject to the following terms and conditions. Our terms and conditions apply exclusively. Any deviating, conflicting or supplementary terms and conditions of the customer shall not apply, unless we explicitly approve their validity. This applies even if we unreservedly provide the customer with a delivery or service despite being aware of the customer's terms and conditions.

1.2 Unless explicitly stated otherwise in the following clauses, these terms and conditions apply both to "traders", as defined in Section 14 of the German Civil Code (BGB), and to legal persons incorporated under public law or investment funds incorporated under public law, as well as to "consumers", as defined in Section 13 BGB. A "consumer" means any natural person who enters into a legal transaction for purposes that predominantly are outside the consumer's trade, business or profession. A "trader" means a natural or legal person or a partnership with legal personality who or which, when concluding a legal transaction, acts in exercise of their trade, business or profession.

2. Conclusion of Contract

2.1 Our offers shall be subject to change. If the customer makes an offer to enter into a contract by placing an order, the relevant contract shall only be established when we accept the offer.

2.2 If an order is placed via our website (www.reimo.de), the following provisions shall apply to the conclusion of the contract in addition to those specified in Section 2.1 above:

The presentation of items on our website shall not constitute a binding offer. The customer may select goods on our website and place them in the virtual shopping cart by clicking on the shopping cart symbol. By clicking on the "Buy now" button, the customer shall make a binding offer to purchase the goods in the shopping cart. The customer may view and change the relevant data at any time before submitting the order.

The customer shall receive an automated email from us to confirm receipt of the order. The automatic confirmation of receipt shall merely document the fact that we have received the customer's order; it shall not mean that we accept the customer's offer to enter into a contract. The contract shall only be established when we submit a declaration of acceptance, which shall be sent as an order confirmation in a separate email. Any contracts facilitated via our website shall be concluded in German.

2.3 All agreements made between us and the customer when entering into the contract shall be fully documented in writing in the contract, including these terms and conditions. Our employees shall not be authorised to make any verbal agreements that deviate from the contract or supplement its provisions.

2.4 We reserve the right to make insignificant changes to components, the design, the colour or other details as part of technical developments, provided such changes are reasonable for the customer, taking into account the interests of both parties. In particular, any such changes must not lead to a reduction in value or an impairment of use.

2.5 Due to the use of natural raw materials, all weight specifications shall be within the usual tolerances of +/- 5%.

3. Prices and Terms of Payment

3.1 Prices and terms of payment for contracts with consumers

(a) The prices indicated for consumers in our online shop and any other prices offered to consumers shall be gross prices quoted in EUROS ex works plus any additional shipping costs that may be indicated. If an order is placed via our website, the respective shipping costs shall be specified in our online shop.

(b) If a consumer places an order via our online shop, we shall offer the following payment methods: PayPal, credit card (MasterCard or Visa) or *Sofortüberweisung*. If we enter into a contract with a consumer in a brick-and-mortar shop, the purchase price must be paid in cash or by EC card upon delivery.

3.2 Prices and terms of payment for contracts with traders

(a) If we make a trader an offer, the prices offered shall be net prices quoted in EUROS ex works, unless stated otherwise. If applicable, the statutory rate of value added tax shall be shown separately on our invoice.

(b) The following terms of payment apply to contracts with traders: Our invoices shall be payable without deductions within 30 days of receipt. If payment is received within 8 days of invoicing, we shall grant a 2% discount for early payment. We shall grant a 3% discount for cash payments, advance payments and successful payment collection based on a SEPA direct debit mandate.

3.3 General terms of payment for consumers and traders

Regardless of whether the customer is a consumer or a trader, the following terms of payment shall also apply:

(a) If the customer defaults on payment, we shall be entitled to charge default interest at the applicable statutory rate. We also reserve the right to assert further claims due to the delay.

(b) The customer shall only be entitled to offset our claims against the customer's own counterclaims – or assert a right of retention – if the customer's counterclaims are legally established, undisputed or recognised by us. However, this restriction does not apply to any counterclaims held by the customer due to defects or the partial non-fulfilment of the contract, provided the claims are based on the same contractual relationship as our claims. The right to offset any claims arising from the exercise of the customer's right of withdrawal, as described in Section 13 below, also remains unaffected.

(c) If it becomes apparent that our claim to the purchase price is jeopardised by the customer's solvency after entering into the contract, we shall be entitled to refuse performance in accordance with the statutory provisions and, if the customer neither pays the purchase price nor provides security within a reasonable period set by us, we shall be entitled to withdraw from the contract (Section 321 BGB).

(d) In the case of contracts for the delivery of complete vehicles, the following also applies: If a delivery date is agreed more than four months after the conclusion of the contract, and if our suppliers increase their prices during this period after the conclusion of the contract for reasons not attributable to us, we shall be entitled to pass on these increased costs to the customer and to adjust our price accordingly. We shall immediately inform the customer.

4. Delivery and Service Deadlines

4.1 We shall only adhere to our delivery and service deadlines if the customer properly fulfils their own obligations in a timely manner.

4.2 Any events for which we are not responsible and which prevent us from providing our services (e.g. strikes, lawful lockouts, official orders, natural disasters and other examples of force majeure) shall release us from our contractual obligations as long as the hindrance persists. We agree to inform the customer immediately about the occurrence and expected duration of such events. If such an event persists for longer than three months, each party shall be entitled to withdraw from the contract. In such cases, any consideration that has already been provided shall be refunded immediately.

4.3 If we default on a delivery or service due to slight negligence, our obligation to compensate for any damage caused by the delay (compensation in addition to performance) shall be limited to a maximum of 5% of the net purchase price of the delayed delivery or service. Our liability for culpable injury to life, limb or health remains unaffected. Our liability for compensation in lieu of performance shall be governed by the provisions of Section 5 of these terms and conditions.

4.4 The delivery of goods is also subject to the provisions of Section 8 (see Part II below).

5. Liability

5.1 We shall be liable in accordance with the statutory provisions if the customer asserts any claims for damages based on intent or gross negligence – including intent or gross negligence on the part of our legal representatives, employees or other vicarious agents – or based on the culpable breach of an essential contractual duty. Essential contractual duties are those which must be observed to achieve the purpose of the contract and on the observance of which the customer may regularly depend. If we are not guilty of intent or gross negligence, our liability for damages in the above cases shall be limited to the foreseeable degree of damage that typically occurs.

5.2 In the case of liability for culpable injury to life, limb or health, the statutory provisions shall remain unaffected; the same applies to cases of mandatory liability under the German Product Liability Act (ProdHaftG).

5.3 Unless otherwise stipulated above, we shall not be liable for any damages regardless of the legal nature of the claim in question. In case of default, our liability shall also be subject to the limitations described in Section 4.3 above.

5.4 The above provisions shall apply accordingly if the customer demands compensation of wasted expenses instead of claiming compensation for damages in lieu of performance.

5.5 If our liability for damages is excluded or limited, this shall also apply with regard to the personal liability of our legal representatives, employees and vicarious agents.

6. Information Provided By Telephone

Any information provided by telephone shall generally be non-binding and without guarantee if we offer an assessment after the matter in question is described by telephone, verbally or in writing and if we have no opportunity to conduct a detailed inspection of the item to which the information relates.

Part II: Special Provisions for Deliveries of Vehicles, Accessories and Spare Parts

7. Special Orders and Custom-Made Vehicles

A deposit of 25% of the purchase price shall be due when a contract is established for special vehicle orders; a deposit of 40% of the purchase price shall be due when a contract is established for custom-made vehicles. Any custom-made vehicles shall be manufactured according to the plans and measurements provided by the customer. The customer shall be solely responsible for the correctness of such measurements.

8. Delivery and Transfer of Risk

8.1 Our deliveries shall be made ex works. The risk of accidental loss or deterioration shall be transferred to the customer, at the latest, when the goods are handed over to the customer. If we ship the goods at the customer's request, the risk shall be transferred to the customer when the goods are handed over to the freight carrier or another person instructed to transport the goods. The statutory transfer of risk in the event of default in acceptance remains unaffected. If the customer is a consumer, the risk in the cases described in the third sentence above shall only be transferred to the customer as soon as the goods are handed over to the freight carrier or another person instructed to transport the goods if the customer has instructed the freight carrier or the other person to carry out the shipping and we have not previously named the transporting person to the customer.

8.2 Unless stated otherwise, any parts ordered via our website shall be delivered within 5 working days.

8.3 We shall be entitled to make partial deliveries if they are reasonable for the customer.

8.4 If the customer requests a different design of the purchased item before it is delivered, the delivery period shall be interrupted until an understanding is reached on the required design; if necessary, the deadline shall be extended by the time required to implement the different design.

8.5 If an agreed, non-binding delivery date is exceeded by more than 6 weeks in the case of a contract for the delivery of vehicles, the customer shall be entitled to set us a reasonable grace period. If we do not deliver the purchased item by the end of the grace period, the customer may withdraw from the contract by means of a written declaration and/or demand compensation in lieu of performance under the legal requirements.

9. Conditions of Acceptance for the Delivery of Vehicles

9.1 If the customer fails to accept a purchased item within 14 days of being notified of its availability, or if the customer refuses to accept the delivery, we shall be entitled to withdraw from the contract and/or to demand compensation due to non-performance after a reasonable grace period set by us.

9.2 In the latter case, we shall be entitled to claim 15% of the purchase price as compensation for damages – without prejudice to the possibility of demanding a greater amount for the damage that is actually incurred. The customer reserves the right to prove that we have incurred significantly less or no damage.

10. Retention of Title

10.1 The goods shall remain our property until the purchase price has been paid in full. By way of derogation from the first sentence, the following shall apply if the customer is a trader: The goods shall remain our property until all claims arising from the business relationship between us and the customer, including any additional claims, have been settled in full. The retention of title shall remain in effect even if some of our claims are included in a current account and the balance has been determined and recognised.

10.2 The customer shall not be permitted to pledge any goods subject to retention of title or assign them as security. We must be immediately notified of any seizures or other third-party interventions. If the third party is unable to reimburse us for the judicial and extra-judicial costs of averting the intervention in question, the customer shall be liable for the loss we incur.

10.3 The customer shall store any goods subject to retention of title for us free of charge. The customer must insure them against common risks such as fire, theft and water with the usual degree of coverage. The customer hereby assigns to us any compensation claims held against insurance companies or any other parties liable for compensation due to any damages of the type described above; the assigned claims shall correspond to the amount of the customer's own claims.

10.4 If the customer fails to meet their payment obligations, we shall be entitled to withdraw from the contract and demand the return of the goods subject to retention of title under the legal requirements.

10.5 If the customer is a trader, the following provisions also apply:

(a) The customer shall be entitled to process and sell any goods subject to retention of title in accordance with the following provisions:

(b) The customer hereby assigns to us any claims arising from the resale of goods subject to retention of title corresponding to the final amount invoiced for our own claims (including VAT); this shall also apply proportionately if the goods are processed, mixed or combined with other items and we acquire co-ownership in the amount of their invoice value. In the latter case, we shall be entitled to a fraction of the respective purchase price claim arising from the resale in the ratio of the invoice value of our goods subject to retention of title to the total invoice value of the item in question. If the customer sells the claim as part of factoring, the customer shall assign to us the claim held against the factor that replaces it. We shall accept the assignment.

(c) We shall not collect any assigned claims as long as the customer meets their payment obligations. The customer shall remain entitled to collect the claims. However, the customer shall no longer be authorised to collect the claims if the customer defaults on payment or if an application is filed for insolvency proceedings against the customer's assets. In such cases, we may ask the customer to notify us of the assigned claims and the debtors, to provide all information required to collect the receivables, to hand over the associated documents, and to inform the debtors that the claims have been assigned to us.

(d) By processing goods subject to retention of title, the customer shall not acquire ownership of the new item pursuant to Section 950 BGB. Any such processing shall be done for us; however, this shall not result in any liabilities for us. If any goods subject to retention of title are processed, mixed or combined with other items, we shall acquire co-ownership of the new item in the ratio of the value of the goods subject to retention of title to the total value of the goods. The customer shall no longer be authorised to process goods subject to retention of title in the ordinary course of business if the customer stops making payments or if an application is filed for insolvency proceedings against the customer's assets.

(e) We agree to release the securities to which we are entitled if their value exceeds the claims to be secured by more than 20%. We shall be responsible for choosing the securities to be released.

11. Warranty for Contracts of Sale

11.1 If any defects are found in our goods, the customer shall have the statutory warranty rights described in Section 434 *et seq.* BGB; however, the customer shall only be able to assert any claims for damages to the extent specified in Section 5 above.

11.2 If the customer is a trader, the following provisions also apply:

(a) The customer shall only be able to assert any warranty claims after properly fulfilling their obligation to inspect the goods and report defects in accordance with Section 377 of the German Commercial Code (HGB). The customer shall be obliged to inspect the purchased items as soon as they are received. Any defects must be reported immediately. Otherwise, the goods shall be deemed to have been accepted in perfect condition, unless the defect was not apparent during the inspection. Any installed parts shall not be replaced or repaired if damage would have been detected upon careful inspection prior to installation. Any hidden defects that were not apparent during a proper inspection must be reported as soon as they are discovered. Any defects must always be reported in writing.

(b) If a purchased item is defective and the defect is properly reported by the customer, we shall be able to choose whether to deliver a replacement or make a repair. We shall acquire ownership of any replaced parts. The place of subsequent performance shall be our registered office. The customer shall only be entitled to withhold payments due to a defect to an extent that is appropriate in relation to the defect and in relation to the cost of rectifying the situation.

(c) The customer shall only be entitled to assert any warranty claims if the customer can prove that the goods were defective when the risk was transferred. In particular, we shall not be liable for any damage caused by improper use, incorrect assembly, inadequate or incorrect maintenance, or any damage caused by natural wear and tear or unauthorised changes to purchased items (e.g. self-assembly, installation of equipment and accessories).

(d) The warranty period applicable to claims for defects shall be 12 months from the delivery of the item in question. By way of derogation from the above, the statutory warranty period of two years shall apply to any claims for damages due to intentional or grossly negligent breaches of duty or culpable injury to life, limb or health. The statutory limitation period in the case of recourse against the supplier (recourse by a trader) remains unaffected.

11.3 We shall only assume any guarantees if this is explicitly stated for the selected product. The details of each guarantee can be found in the relevant guarantee conditions. Any guarantees shall apply in addition to statutory warranty rights.

12. Agreements on Returns for Traders

If the customer is a trader, the following applies with regard to returns: Unless there is a warranty claim, any goods may only be returned with our prior, written consent; the returned goods must be accompanied by a copy of the invoice. In such cases, the return shipping costs must be borne by the customer. Unless otherwise agreed, the customer shall also be obliged to pay 15% of the purchase price in such cases.

13. Cancellation Right for Consumers

If the customer is a consumer who enters into a contract with us via our website, the customer shall be entitled to cancel their order under the following conditions:

Cancellation Policy

The customer shall be entitled to cancel the contract within fourteen days without stating their reason for doing so. The fourteen-day cancellation period shall begin on the day the goods are handed over to the customer or a third party designated by the customer, excluding the carrier. In case of a contract for several goods that are requested by the customer as part of a single order and that are delivered separately, the fourteen-day cancellation period shall begin on the day the last goods are handed over to the customer or a third party named by the customer, excluding the carrier.

In order to exercise the cancellation rights described above, the customer must send us a clear statement (e.g. a letter sent by post, fax or email) regarding their decision to withdraw from the contract; we can be contacted as follows: Reimo Reisenobil-Center GmbH, Lieferzentrum, Abt. Retouren, Am Rotbühl 17-19, D-64331 Weiterstadt; Fax: +49 6150 8662-329; Tel.: +49 6150 8662367; Email: shop@reimo.com. The customer may use the attached cancellation form template, but this is not mandatory. In order to meet the deadline, the customer must merely submit the statement outlining their intention to cancel the contract before the end of the cancellation period.

Ramifications of cancellation:

If the customer cancels the contract, we shall reimburse any payments received from the customer, including shipping costs (except for any additional costs incurred if the customer does not choose our cheap standard shipping); we shall make the refund immediately – and at the latest within fourteen days of receiving notification of their intention to cancel the contract. We shall make the refund with the same payment method used by the customer for the original transaction, unless alternative arrangements are explicitly agreed with the customer; under no circumstances shall the customer be charged any fees for the refund.

We may refuse to make a refund until we have received the returned goods or until the customer has provided evidence to prove that the goods have been returned, whichever comes first.

The customer must return or hand over the goods immediately – and at the latest within fourteen days of notifying us of the cancellation of the contract. The deadline shall be met if the customer sends off the goods before the end of the fourteen-day period.

The costs directly associated with the return shipment shall be borne by the customer. If goods cannot be sent by parcel and cannot be returned normally by post, we shall offer to collect the goods from the customer at our expense.

The customer must only pay for any depreciation of the goods if the loss of value is caused by the use of the goods in a manner that is not necessary to check their quality, properties and functionality.

Part III: Special Provisions for Services Involving Work Performed on Items Not Procured By Us

14. Customer's Obligation to Cooperate

14.1 If the customer places an order for the provision of services involving work performed on items not procured by us, the customer must make the vehicle available to us at the agreed time in a condition suitable for performing the work.

14.2 If the vehicle needs to be cleaned before the work specified in the order can be performed, and if the cleaning is done by us, we shall be entitled to invoice the customer for this.

14.3 In the case of orders involving assembly, the vehicle must be in factory or standard condition and must be delivered in a completely empty state. We shall not be liable for any moving parts found in the vehicle contrary to this agreement, unless the customer can prove that we are guilty of intent or gross negligence. An additional charge shall be incurred for any work required to create or compensate for this condition (e.g. damaged vehicle).

14.4 In the case of orders involving assembly and repair, the cost estimate may be exceeded by up to 15% if any unforeseen circumstances arise during the work and we are unable to consult the customer at short notice. The customer's rights pursuant to Section 649 BGB shall otherwise remain unaffected.

14.5 Unless otherwise agreed, we shall immediately dispose of any removed parts for a fee.

15. Collection and Acceptance

15.1 The customer shall be obliged to collect the object of the order no later than one week after receiving notification that the order is complete. The customer shall be obliged to formally accept the work performed in accordance with the contract. Unless otherwise agreed, the formal acceptance procedure with the customer shall take place at our registered office. The customer must not refuse acceptance due to insignificant defects.

15.2 In the event of non-acceptance, we shall be entitled to assert our statutory rights without restriction. In particular, we shall be entitled to charge the usual local storage costs. If the customer defaults on acceptance, the risk shall be transferred to the customer.

16. Warranty for Services Involving Work Performed on Items Not Procured By Us

If any service involving work performed on items not procured by us proves to be inadequate, the customer shall be able to assert their statutory warranty rights; however, the customer shall only be able to assert any claims for damages to the extent specified in Section 5 above. The warranty period shall be one year from acceptance. By way of derogation from the above, the statutory warranty period shall apply to any claims for damages due to intent, gross negligence or culpable injury to life, limb or health.

Part IV: Final Provisions

17. Place of Jurisdiction and Applicable Law

17.1 If the customer is a merchant, a legal person incorporated under public law or an investment fund incorporated under public law, the courts at our registered office shall be the place of jurisdiction for any disputes arising from or in connection with the contract. This agreement on the place of jurisdiction applies exclusively to the customer. We shall also be entitled to take legal action against the customer at their general place of jurisdiction.

17.2 These terms and conditions are subject to the law of the Federal Republic of Germany to the exclusion of the United Nations Convention on Contracts for the International Sale of Goods (CISG). If the customer is a consumer whose habitual residence is located in a country other than Germany at the time the order is placed, however, the application of the mandatory legal provisions of the country in question shall remain unaffected by the choice of law identified in the first sentence.

18. Dispute Resolution in Consumer Contracts

18.1 The European Commission has created an online dispute resolution platform that serves as a point of contact for the out-of-court settlement of disputes with consumers in relation to contractual obligations arising from online contracts. This is available here: <http://ec.europa.eu/consumers/odr/>.

18.2 We are neither obliged nor willing to participate in dispute resolution proceedings before a consumer arbitration board under the German Act on Alternative Dispute Resolution in Consumer Matters (VStGB).

19. Severability Clause

If any provisions of these terms and conditions prove to be ineffective, this shall have no bearing on the effectiveness of the remaining provisions. Any ineffective provisions shall be replaced by the statutory provisions.
